

# 2007 Yearly Work report on JiNan Municipality Creating U.N. Traffic Safety Demonstration City

Since 2007, under the leadership of the municipal government, the work of JiNan Municipality creating U.N. traffic safety demonstration city, carried out the Scientific Outline on Development in an all-around way, according to the goal of ‘reducing accidents’, ‘ensuring safety’, ‘keeping smooth’, surrounding the 11<sup>th</sup> National Sports holding in our city in 2009 and ‘safeguarding the stabilization of the city, developing the economy of the province, building beautiful city’, closely hold the important strategic opportunity for speeding up the modernization of the provincial city, according to the topic of the ‘harmonious, civilization and green traffic’, combined carrying out the ‘Smooth Traffic Project’, steadily intensified the work measures of traffic safety administration, prevented serious roadway traffic accidents completely, actively advanced the creating work of ‘U.N. traffic safety demonstration city’ of our city, created better roadway traffic circumstance for the scientific development of economy and society, harmonious development, taking the lead in development. The relevant things is reported as follows:

**. The government highly regards it, and the work system of roadway traffic safety has been consummated step by step.**

The municipal government highly regards the work of creating U.N. traffic safety demonstration city, the mayor Zhang Jianguo specially made out important decisions for the problems of traffic in our city, and put forward idiographic demands. The vice mayor Yin Luqian and Zou Shiping came to the gleam of roadway construction times after times, researched and solved the problems of traffic safety on the spot. In this year, the office of the municipal government specially issued the *Carrying-out Scenario on the Work of Roadway Traffic Safety Collected improving*, well defined the work task and the responsibility of all-levels function departments. *Provision of JiNan Municipality on Responsibility of Road Traffic Safety* was approved at the 54<sup>th</sup> executive meeting of Municipal Government, and shall take into effect citywide as of Dec. 10th, 2007, and for the first time, all-level governments, Government organs, enterprises, institutions, public associations shall put into effect the roadway traffic safety responsibility according to the shape of the government order. The roadway safety system leading by the government, administrating by relevant function departments, participating by all-circles in society is coming into law-based progress in due form. Public security organs fully bring

into play the function of the secretariat of the creating committee, closely depend on all-levels government leaders, according with the carrier of the action of ‘the creating safe and smooth county-borough’, and according with municipality, county(borough) two-levels roadway traffic safety conference system, preserve in fixed regular meeting system, actively correspond and cooperate relevant function departments, according with the relevant demands on the assessment system of the creating U.N. traffic safety demonstration city, energetically organize and carry out the diversified creating works, continually enhance special traffic safety improving measures, get rid of the traffic safety hidden troubles, insured basic stabilization of the roadway traffic safety condition.

**.actively unfold roadway traffic safety collected punishing, standardize the roadway order for driving, insure driving safety**

Public security, traffic, and so on, energetically strengthen the patrolling and supervising of the national highways, provincial highways, freeways and county-countryside low-level roads. Under the uniform leading of the municipal committee and the municipal government, unite the relevant municipal departments, early or late develop the special action of standardizing trike, traffic safety collected improving, creating ‘a section of a highway without death’, and so on special improving actions, strictly check

passenger-carrying cars overloading, excessive speed, fatigue driving, and the serious traffic illegally actions of the trike, low-speed carrying cargoes and tractors carrying persons. Cosmically develop collected improving, strictly check the illegally actions of the big trucks rushing traffic-lamp, disobeying banned provision, overloading, no-brand and no-certificate and so on, twenty-two drivers who seriously disobeyed the traffic law were administratively impounded, we achieved prominent effects. We set up sixteen fixed surveying-speed points, eighty-two floating surveying-speed points, fully in virtue of the modern equipments of TV-supervising, automatically imaging system of rushing traffic-lamp, hand-holding mobile phones and so on, increase the times of executing the law non-on-the-spot, improve the efficiency and criterion of executing the law, continually strengthen the construction of the public security traffic prevention and controlling system, established the twenty-four hours public security traffic patrolling system, according to the center of commanding center, depending on the GPS system, twelve police stations, over five hundred police cars and motors.

**.According with the carrier of ‘smooth traffic project’, energetically actualize town and county synthetic improvement, creating safe civilization harmonious roadway traffic condition**

In this year, during the widening and rebuilding of over fifty roads, we realized synchronous programming, synchronous constructing, synchronous checking and accepting between the traffic safety establishments and the roadway construction. We exert efforts to improve the spur tracks, hypo-truck-road and alleyway, increase the efficiency of the utilization of the hypo-truck-roads, spur tracks.

The municipal public security, construction committee, city administration, business administration, and so on, closely work in together, enhance the improvement of the road-market and business-going by occupying road, clean up and standardize thirty-four road-market, increase and bring into eighty-seven standardized management points, sixty-seven spur tracks were resumed traffic function. We fasten the construction of the hypo-truck-roads, road sign and road mark of the spur tracks, solve the faultiness on the road-signs and road-marks of the hypo-truck-roads, spur tracks, ulteriorly standardize the improvement of the dynamic and static traffic order of the motor vehicles, intensify the management of the illegally action of passerby, non-motor-vehicles and trikes. Strictly execute *Measures on JiNan Municipal areas of Park Program Construction and Administration*, and be strict with the examine

and approve procedure of the managerial communal parks and matching parks, and assess the traffic infection on the addresses of the parks. Since this year, we newly increase forty-four managerial communal parks, add five thousands eight hundred and seventy-nine temporary parking berths beside the way; newly increase one hundred and forty matching park, and put forward improvement advices for one hundred and twenty-eight among them, completely embody roadway resources in existence, scientifically program and construct parking areas, increase over four thousands parking berths, the difficult of parking in central areas of the city is eased up in effect.

**. Snatch the headstream management; improve the macula of traffic accidents, eliminate the hidden troubles of the traffic safety**

According to the keystone to the long-distance passenger-cars, school-cars, the cars of carrying dangerous chemic goods and so on, spread ‘the information management system of the big buses of carrying passengers, the carrying of dangerous chemic goods, school cars’ and the household registered management experience of ‘one car one file’, ‘one person one file’, practise the system of roadway traffic safety responsibility card, carry out one person one card, and the card should be taken along with the car. Organize the police man

to go deep into the units that engaged in carrying passengers and cargos to unfold safety checks, we had one by one checked over four thousands long-distance passengers-carrying cars on their safety performance of the brake, turning, lamps, tires and the safety establishments, for example the extinguisher, and so on. We actively correspond traffic department to stop using to improve fifty-eight cars, because they had incomplete procedures, or their safety capability fall short of relevant standards; we actively correspond municipal safety production committee, check and accept the improvement condition of dangerous points and sections, among them, there are two belong to the province, twenty-eight belong to the municipality, all these dangerous points and sections were newly checked out in 2007; and definite responsibility units and improving time limit on over ten dangerous points and sections that are not improved completely. At the same time, the traffic police of all levels borough, county(city) combine the local condition, check out forty-five dangerous accident points and sections, they had report for local government, and corresponded relevant departments to fulfill the improvement measures one by one; via increasing speed-down strip, consummating traffic safety sign and so on, at present, they had improved thirty points. Be strict with the examination to the drivers, the drivers quality of the examination is

continuous stepping up; we update the motor-driving examination testing questions, use peg testing appearance and road testing appearance. Promulgate five convenient service measures including minitype car can select the number edited by their owners. Up to date, in the whole city, the quantity of the cars had broken through one million, and we had fulfilled over ten thousands and six thousands cars which providing with the new brands ibibem.

**.Vigorously advance city civilization traffic courtliness action, consolidate traffic safety propagandizing, constructing rich social atmosphere**

Holding the roadway traffic safety collected improvement startup ceremony, via showing the big traffic safety propagandizing boards, handing out traffic safety propagandizing materials, organizing ‘ten thousands of persons signatures’, handing out traffic safety propagandizing mobile phone notes, and so on, surge the climax of propagandizing traffic safety collected improvement in the whole city. Combine the relevant municipal departments, start up the action of ‘sparking plug civilization courtliness, constructing harmonious traffic’. Go deep into unfolding traffic safety ‘five enterings’ propagandizing and city civilization courtliness action, go deep into three hundreds and fifteen enterprises, over six hundreds schools, over six hundreds villages, adopt convoking colloquia,

preach, students topic class meet, village convention and so on, unfold propagandizing education face to face, the concept of ‘four civilizations, four courtliness’ go deep into the hearts step by step. Deeply unfolding ‘ten ten-thousands’ creating action, at present, we had touched two thousands eight hundreds and seventy-nine, retained nine hundreds and fifty-six traffic safety members, brunt up ten thousands and one hundred and eighty-nine little traffic policemen, mounted one thousand two hundred and twenty-five fixed publicizing boards, unfolded sending law into ten thousands of families about five thousands eight hundreds and eight, for the sake of deepening traffic safety propagandizing established firm basis. Since this year, we early or late broadcast all kinds of contributions and photos about four thousands four hundred and thirty-eight on the central or provincial and municipal news medias, we archived better social propagandizing effects, the traffic safety socialized propagandizing situation of ‘landscape orientation to side, portrait to the end’ has been established and perfected.
